Objectives of the event

- The objective of this painting and Essay writing competition is to create awareness among the growing children about conservation of water.
- The theme for the painting competition is “SAVE WATER FOR FUTURE”.
- This painting and Essay writing competition on water conservation leads to innovative ideas for depicting the water stressed situation and solution for water conservation. It is well known that children are good motivators and if they follow good practices and others in society will follow them.
- Through this painting and Essay writing competition, School of Civil Engineering is making an effort to create wealth of motivators to educate the society on water conservation at large.
- The very purpose of this program is to sensitize the society through student community towards the issues of water and need for its conservation by involving maximum number of Schools around the University.
