About the National Seminar

School of Arts, Humanities & Social Sciences of REVA University, Bengaluru, is organizing a National level multi-disciplinary seminar on 18th May 2023. The School extends an open invitation to Students, Research scholars, Faculty members and Industry Professionals from India to participate and present papers on the primary theme of the seminar. Artificial Intelligence (AI) is revolutionizing various fields and transforming the way we live and work. One such field that has great potential to benefit from AI is education. As technology continues to advance, educators are looking for innovative ways to engage students, personalize learning, and enhance educational outcomes. AI has the potential to help achieve these goals by providing intelligent tutoring systems, automating administrative tasks, and offering insights into student learning patterns. This Seminar aims to explore the potential of AI in teaching and learning and its impact on education. By examining current research and case studies, the Seminar will discuss the benefits and challenges of implementing AI in education and provide insights into how AI can be leveraged to improve the teaching and learning experience.
