Welcome by **Prof. Madhu B P**, NSS Programme Coordinator Vote of Thanks by **Capt. Dr M Munegowda**, NCC officer, REVA University

Camp Summary:

Total OPD: 143 Normal cases: 22, Total RBH: 17, Cataract Surgery: 35, Total Spectacle: 69, Single vision: 1, Bifocal vision: 68

37 Unit of Blood collected in the camp.

Event Objective:

1. To conduct free eye checkup camp and Blood Donation Camp for community development.
2. Since Cataract is the major cause of blindness, our main objective of conducting eye camps is to identify people with cataract and provide them with the necessary treatment, that is, surgery.
3. To detect Glaucoma cases and manage by routine tonometry and in suspected and proved cases of Glaucoma, to refer them to the base hospital for treatment.
4. To prescribe glasses for refractive errors.

5. To detect and treat (operate when required) diseases such as pterygium, chronic dacryocystitis and other infections.
6. To undertake health education of the community on proper care.
7. To develop and maintain relationships with the community.

Event Outcome:

- Increased student involvement in social activities
- It has come as a big help for people who depend on free eye check-up and operation camps.
- people who need to undergo cataract operation or other eye check-ups in the months.
- Sankar Eye hospital provided spectacles and medicines free of cost.
