

**School of Computer Science and Engineering  
Organises  
SERB Sponsored  
(Under Symposium & Seminar Scheme)  
Five-day Workshop  
On  
Machine Learning for Interdisciplinary Engineering  
4<sup>th</sup> to 8<sup>th</sup> December, 2023**

The workshop aims to foster collaboration and knowledge exchange among experts in different disciplines who are interested in utilizing machine learning techniques. Participants will explore the potential applications of machine learning in interdisciplinary contexts, such as healthcare, finance, environmental sciences, social sciences, and more.

**Workshop Objectives:**

- Explore the intersection of machine learning with various fields of study.
- Understand the challenges and opportunities in applying machine learning techniques across disciplines.
- Showcase successful interdisciplinary projects that have leveraged machine learning effectively.
- Encourage networking and collaboration among participants from different domains.
