Date: 13th-15th March, 27th-28th March, 2024

Organized by: Ar. Suruchi Sharma; SDC Coordinator, School of Architecture, REVA University

Faculty Coordinator: Ar. Sharia Durrani, Assistant Professor, School of Architecture, REVA University

Venue: FabLab, REVA University

Resource Person: Ar. Sriviji Nachimuthu, Mr. Akhil George

Number of Students: 35

About the SDC: Working the Grain, a skill development program curated for the students of II Semester, B.Arch, School of Architecture, REVA University. The program was designed to teach students woodworking as a skill. As a part of the subjects: Structural Systems and Building Construction as well as modelmaking, the skill of identifying and building artefacts out of wood, using joineries taught in class is the main agenda of the event. 35 students, the entire class strength participated and benefitted from the event with help from Mr. Akhil George and using the FAB Lab.

Outcome: The students learnt material procurement, use of power tools, wooden joinery learnt prior in SSBC coursework and then created scaled wooden doors of different types.

I humbly thank Ar. Sriviji N for her dedication and time as resource person for the SDC, Mr. Akhil G, for his relentless efforts to teach and train the students.
