

International Relations and Research Collaborations REVA International Students Association (RISA)

Organized

Effective English Writing Strategies

Program Report

REVA International Students Association (RISA), REVA University, organized a museum visit to the Visvesvaraya Industrial & Technological Museum on 27th February 2025. The visit was attended by two faculty members from the School of Computer Science and Applications (CSA), along with the RISA President, Male Vice President, Treasurer, Cultural Secretary, Sports Secretary, and Public Relations Secretary. A total of 58 international students from REVA University participated in this educational excursion.

The visit provided students with valuable insights into **India's cultural heritage and technological evolution**, making it a meaningful learning experience.

About the Workshop:

The museum visit was meticulously organized by **International Relations and Research Collaborations (IRRC)** in association with **REVA International Students Association (RISA)**. The primary objective was to offer participants a deeper understanding of **India's cultural and technological advancements** over time.

Flow of the Program

- The journey began at **10:00 AM**, with transportation provided by **International Relations and Research Collaborations (IRRC)**. The group departed from **REVA University** and arrived at the **museum by 11:30 AM**.
- Participants explored **various exhibits** showcasing **India's technological progress, industrial innovations, and scientific advancements**.
- The visit encouraged **cross-cultural interactions** among **58 international students from Asia, Africa, and the Middle East**, fostering a dynamic exchange of perspectives.
- The program concluded with a **speech by the RISA President**, who expressed gratitude to **the two faculty members, and students** for their participation.
- In return, students expressed their appreciation to **RISA and the organizing team**, acknowledging the value of the experience and requesting **more such educational programs in the future**.

Outcomes of the Program:

- Participants gained a deeper understanding of India's technological and industrial evolution
- The visit received **overwhelmingly positive feedback**, with students commending its **organization and educational impact**
- Many participants requested **more such interactive and knowledge-enhancing programs** in the future.
